

Molecular Microbiology and Microbial Pathogenesis

Seminar Series (Virtual)

*** Fall 2020 ***

Tuesdays at 12:00 Noon (except as noted *)

via Zoom:

<https://wustl.zoom.us/j/99615116361?pwd=bDRwZTdXNmFzbytCL1hVWWZDQ0VrQT09>

September 22 *9:00am CDT	Nicolas Manel Insitut Curie, Paris Host: Sebla Kutluay	Activation of innate immune sensors by viruses and self
September 29	Terry Dermody University of Pittsburgh Host: Megan Baldrige	A protein-folding network required for reovirus capsid assembly
October 6	Anita Sil University of California, San Francisco Host: Tamara Doering	Control of virulence and cell shape by temperature in <i>Histoplasma capsulatum</i>
October 13	Bill Powderly Washington University School of Medicine Host: David Wang	COVID-19: Bringing microbial pathogenesis to the patient
October 20	Carey-Ann Burnham Washington University School of Medicine Host: Tamara Doering	2020: A diagnostic testing odyssey
October 27	Mike Diamond Washington University School of Medicine Host: Joseph Vogel	Developing countermeasures to emerging RNA viruses: Stopping viruses at the point of attack
November 3	Rachel Presti / Jane O'Halloran Washington University School of Medicine Host: David Wang	Update on clinical research on COVID-19
November 10	Siyuan Ding Washington University School of Medicine Host: Joseph Vogel	SARS-CoV-2 in the gut: A fluid and crappy situation
November 17	Ali Ellebedy Washington University School of Medicine Host: Tamara Doering	B cell and antibody responses to respiratory viral infections
November 24	No Seminar	
December 1	Kim Davis Johns Hopkins Bloomberg School of Public Health Host: Joseph Vogel	Keeping the stress to a minimum: Cooperation between subpopulations of <i>Yersinia pseudotuberculosis</i> during infection

Please contact the host if you wish to meet with the speaker.
